

EHP Specialty Drug Copay Card Assistance Program as of January 2023

As outlined in your Summary Plan Description, certain specialty medications listed below require the use of the manufacturer's copay assistance card. For these specialty medications, the member's copay will be adjusted upward to maximize the financial benefit offered by the pharmaceutical manufacturer, but this adjustment will be completely offset by the copay card, such that members will have no additional out-of-pocket expense above and beyond what they are currently paying for their specialty medication. Please refer to your Summary Plan Description for more details about this program.
