What about emergency care?

There are no network restrictions for emergency or urgent care visits – You have equal coverage for these types of visits under both plans regardless of where you go. Emergency and urgent care visits are covered at 100% after the applicable copay.

What about Prescriptions?

There is no difference in prescription drug coverage under either plan. Prescriptions should still be obtained from a Cleveland Clinic Pharmacy (in-store or mail service). Alternatively, you can fill acute need prescriptions at CVS locations. Your annual pharmacy deductible will apply.
