

Program Requirements | Hyperlipidemia Track

The Healthy Choice program is a voluntary premium discount program from the Employee Health Plan (EHP) that rewards you for taking action to manage your health. The program provides resources to help you save on your premium and support your overall well-being. When you participate and meet the program requirements, you'll be eligible to earn a discount off next year's premium.

If you have a spouse on the health plan, they can also participate, and together you can achieve the best discount.

Your health plan is committed to helping you achieve your best health. Rewards for participating in a wellness program are available to all employees. If you think you might be unable to meet a standard for a reward under this wellness program, you might qualify for an opportunity to earn the same reward by different means. We will work with you (and, if you wish, with your doctor) to find a wellness program with the same reward that is right for you in light of your health status.
