

Activity Device Guide | Fitbit

How to link a Fitbit device to the Healthy Choice App

Link your Fitbit account directly to your Healthy Choice portal.

1. First download and login or create a Fitbit account. Sync your phone to the Fitbit App and ensure steps or active minutes are tracking.
2. Scan the QR code or click the logo to download the Healthy Choice App.

3. Log in to or create a Healthy Choice account.
4. Tap the menu (3 dots) and select the “Link Device” tab, then tap on “Link to Fitbit”.
5. Enter your Fitbit account credentials and click “login.”
6. Click “allow all” and then “allow” at the bottom to allow access to your activity data.
7. Navigate back to the Healthy Choice App and tap the running man icon to view your dashboard and confirm your data is syncing to the portal.

NOTE: It is the members responsibility to ensure steps or active minutes are uploading to the Healthy Choice portal. In order for steps or activity data to show in your Healthy Choice portal you must open the Healthy Choice App to allow the data to sync. We recommend opening the Healthy Choice App on a weekly basis.
